Subject: Intoxicated Driver Program training for IDP Coordinators and Supervisors

DHS 62.04(5), Wisconsin Administrative Code, requires counties to appoint a designated coordinator to be responsible for the Intoxicated Driver Program (IDP) on behalf of the board. The designated coordinator must complete the approved IDP assessor training. In addition, IDP assessors must be supervised by a supervisor who has completed the intoxicated driver assessment training and be knowledgeable in psychopharmacology of substances, addiction, and addiction treatment as evidenced by education, training or experience.

DHS is piloting an IDP Coordinator and Supervisor training for designated coordinators and supervisors who **do not** conduct intoxicated driver program assessments. This training is designed to give coordinators and supervisors an overview of intoxicated driver program requirements and the Wisconsin Assessment of the Impaired Driver (WAID), the approved screening tool. It will **not** qualify participants to conduct IDP assessments. The next full IDP - Assessor Training is scheduled September 24-25, 2012, in Madison.

This pilot program will require a brief review of IDP program requirements and a short quiz prior to attendance at this one-day training. We encourage counties to make this training available for all coordinators and supervisors who have not completed the full IDP-Assessor Training. Information shared in this program may also benefit IDP coordinators and supervisors who have already completed the IDP assessor training as it will focus on broader program responsibilities.
